completed this year. The one in Philadelphia is the most magnificent structure of the kind in the country, and when furnished and entirely completed will be worth at least \$1,000,000. The Winnemucca and Silver City stage was stop-

A NEW KIND OF BARREL.-The world moves, even in the matter of barrel making. On 'Change yesterday was exhibited some specimens of barrels-for flour, fruit and liquids-that are of novel construction. They are double staved; literally a barrel within a barrel, and all the joints being broken renders this new barrel perfectly water-tight. This marvel in cooperage is manufactured by a St. Louis institution too, and the cost is to be no more than that of the common barrel .- St. Louis Democrat.

During the recent political canvass in San Francisco, a new and interesting fact was developed which shows that the spirit of Know-Nothingiam has not altogether died out in that country. The new politicoreligious organization called the Order of the Crescent, having for its objects the exclusion of Roman Cathelies from office, numbered about six thousand members, and acted as a balance of power between the other two parties. It seemed the election of Chief of Police, Sheriff, Recorder, and all the School Directors of the city but two.

IS THE ORIGINAL AND ONLY GENUINE. THE PUBLIC ARE CAUTIONED AGAINST the unfounded statements frequently made, "that the composition of CHLRODYNE is known to Chemists and the Medical profession." The fact is, Chlorodyne was discovered and invented by Dr. J. COL-LIS BROWNE (ex Army Medical Staff), and so named by him, and it has baffed all attempts at analyais by the first Chemists of the day. The method and secret of the preparation have never been published. It is obvious, therefore, that anything sold under the name, save Dr. J. COLLIS BROWNE'S CHILORODYNE, is a spurious imitation.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, eains the system, restores the deranged functions, and stimulates heatthy action of the secretices of the body, without cuesting any of those unpleasent remits attending the use of opinin. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extel its virtues most extensively, using it in great quantities in the following diseases:—Cholera, Dysentery, Diarrhors, Colies, Coughs, Asthma, Rheumatism, Neuralgia, Whooping Cough, Cramp Hysteria, &c.
